THE WATER GARDEN BOOK

LOVELAND GOLDFISH FARM

JOE JOHANNIGMAN, JR.
LOVELAND, OHIO

This lovely scene can be duplicated by using our Collection No. 1, described fully on page 14

Greetings . . .

WATER GARDENERS

Juno—night-blooming Lily

To our many old friends who appreciate the incomparable delights of water gardening, we need not dwell at length upon the abundant happiness which their 1936 water gardens will surely bring to them. New-comers, who have yet to be thrilled by the entrancing beauty of Water Lilies and other aquatics cultivated by their own hand, we extend a most sincere welcome and a promise of real adventure in the realm of horticulture.

The letters which we received last year from our friends throughout the country reveal the increasing interest and partiality displayed toward the pool as compared to other forms of gardening. In arranging and caring for a pool of interesting, colorful plants, the garden lover soon finds wholesome expression that is distinctly different from that experienced in his regular soil gardening.

The cold, wet spring of 1935 was very discouraging to general gardening—but the joys of the water gardeners were unconfined! For example, Mr. D. S. McKee of Wheeling, W. Va., wrote us: "I am sure that no one could have more beautiful foliage and blossoms than those in my pool!"

It is with pardonable pride that we reflect upon the pleasant hours which Loveland Aquatic Plants have provided in the past. Our 1936 list of Tropical Lilies, Hardy Lilies and Goldfish is complete and will answer your every need. But whether your order is large or small, be assured of our deep appreciation and our fullest co-operation in adding to your water garden enjoyment.

ADD A BOG GARDEN

In addition to your water garden, wouldn't you like a little brook, trickling on and on—rocky sides in miniature for plants that choose to grow near a brook—little inlets for plants that prefer wet ground but do not grow aquatic.

Be sure to add a bog—whether it is large or small. The bog should be planted in the lowest part of the ground where water naturally collects. Many bogs are built adjacent to an informal pool—so arranged that the overflow of the pool floods the bog.

The best plants for this type of garden are those listed on pages 11, 12 and 13.

Quality, Fair Prices and Service

For years we have been serving lovers of aquatic life. They have steadily increased in number due to the confidence we have gained because of our fair prices and high quality stock.

Our large, modern facilities enable us to offer exceptional values in Water Lilies, Plants for pools, Fish and Supplies.

We have prepared many special offers which are **real bargains**—values which we know cannot be beat anywhere. There are some fine collections of Lilies, some priced as low as \$2.75. Our Lilies, that grow and bloom, were never so attractively priced.

There are real bargains in Shallow Water, Bog and Floating Plants.

We are always here to give you service and stand back of our goods. The standard, "a satisfied customer," has always been sacred with us. Old customers, we know you will be with us again with an order. New customers can order with assurance that they will get **plants for pools**, which are the finest grown.

While the Loveland Goldfish Farm has been established for many years and has grown from a one-man business to a large modern organization, all of your orders receive the personal attention of Mr. Joe Johannigman. We can, therefore, assure you of satisfactory service on every purchase.

We appreciate the loyal support of the thousands of customers who have sent in orders year after year. We hope to hear from you again this year.

HOW TO ORDER

ORDER EARLY. This is most important—and use Order Sheet found in rear part of this catalog, carefully filling in blank spaces and enclosing payment for full amount of order. Write name and address plainly. To facilitate handling do not write letters on same sheet as orders.

REMITTANCE should be made by Post Office or Express Money Order, Bank Draft, or if more convenient to you send your personal check.

ORDERS LESS THAN \$1.00. Please include 10c extra for packing charges. This does not apply to Fish Food orders.

HOW AND WHEN WE SHIP. **Plants:** All orders for Water Lilies and other plants for pools are shipped **prepaid**.

Water Lilies and all plants for pools are shipped as soon as weather permits, about April 15th. Tropical Lilies may be set out whenever the weather is settled. For southern shipments, about May 1st. Northern shipments (Cincinnati), about May 15th.

GOLDFISH AND TROPICAL FISH must be sent by express. Shipping cans, 50c extra. We ship Goldfish and Tropical Fish listed in this catalog all the year round. Tropical Fish are shipped in cold

weather (October to May) in insulated cans. A \$1.00 deposit is required on insulated cans to insure prompt return.

HANDLING GOLDFISH ON ARRIVAL. Never allow them to remain in their cans for too long a period or overnight. Before transferring fish to your pool or aquarium, be sure the temperature of the water is of no great difference. Best to add some of your water to the can in which fish have been shipped. Use one ounce of salt per gallon of water to help heal any injury that was done in shipping. Do not take fish in hands. Use a dip net.

TROPICAL FISH ON ARRIVAL. Be sure to allow them to remain in original water, and placed near the aquarium, slowly add some of your aquarium water. Do not put fish into your aquarium until both waters are the same temperature.

POSTAGE. On the following items, except where noted, we pay the postage: Water Lilies, Aquarium Plants, Fish Remedies, Terrarium Plants, Aquarium Supplies, Books, Fish Foods, Scavengers.

CULTURAL DIRECTIONS. We have printed on small leaflets for your convenience complete cultural directions. One of these will be sent with each order.

GUARANTEE

We ship good stock, carefully packed. All goods are guaranteed to reach you in good condition. If package should arrive in bad order, accept shipment, examine and count on receipt and notify us at once, and if **damaged** notify Express Company. We do not guarantee growth, as we cannot govern conditions after planting.

STANDARD NON-WARRANTY. We have adopted the standard non-warranty of the Goldfish Growers Association, which is as follows: Loveland Goldfish Farm makes no warranty, expressed or implied, with reference to any merchandise sold by us, except as to certified size and quality, and that all stock shall be true to name and our liability in any case shall be limited to the replacement of such items as are short or damaged.

Planting the Water Garden

Care of Plants on Arrival

Unpack the package carefully to prevent breaking of the plants and immediately put them in a pail or tub of water, until you are ready to plant them. Have all boxes filled with soil and everything ready before you commence to plant. All aquatic plants will wilt easily if subjected to wind or sun before being planted. Lilies and other plants will keep for several days floating in a tub of water if kept in partial shade. Tropical Lilies should be planted as soon as possible.

Water Lilies — Planting, Care

The best results are obtained by planting the lily roots in the soil so the crown will be even with the top of the soil and from 6 to 12 inches below the surface of the water. Where the pool is two feet deep or over, it is necessary that stones or bricks be used to build up the box to the proper distance under the surface. Many varieties, however, will grow in much deeper water. All Water Lilies like full sunlight and flower best when not too much shaded. Each Lily should have a minimum of one cubic foot of soil—a box about 14 inches by 14 inches by 10 inches deep will hold this amount. Lilies can be grown in this box for about three years before it is necessary to change the soil.

They like plenty of good garden soil, well enriched with cow manure or some good commercial fertilizer, such as blood meal used at the rate of about a pound to a bushel of soil.

When planting the Lilies the soil should be well firmed around them. An inch of sand or gravel put on the box after they have been planted will help keep the water clear and prevent the goldfish from rooting in the mud.

Tropical Lilies

Are shipped as potted plants. They should be kept from drying winds and sunshine until planted. Tropical Lilies should be planted upright, digging a hole to fit the ball of soil and firming the soil around it. They should not be set out until weather is settled and warm. They grow very rapidly and commence blooming while still quite small.

Lotus

These beautiful plants sometimes prove a little difficult to grow, but if a small amount of attention is given them, one is well repaid for the trouble. Lotus roots look just like bananas. They are very brittle and the growing points are easily broken. Be careful in handling them. In planting press them gently in the soil until they are covered about an inch and so the growing point is just peeping through.

Aquatic Plants

The different classes of aquatic plants are all easily grown and require very little attention after planting. When they grow too rampant they may be thinned out.

Floating Plants

These grow without soil. In most cases the plants will grow more rampant if the roots do touch the soil. They thrive in sun and semi-shade.

Shallow Water Plants

All of them may be planted in water ranging from an inch or so to almost 10 inches in depth. They prefer 4 to 6 inches of water.

Bog Plants

These plants thrive in a wet soil or in very shallow water. They may be planted along the margin of a natural pond.

Oxygenating Plants

They are shipped in bunches which soon take root. They should be planted in the same box with the Lily or in pots.

Wintering

If the water is to be drained out of the pool place the lily tubers in damp soil in the basement, or the boxes containing the lilies may be removed to the basement and kept moist until the following spring. If you leave the water in your pool, and where ice never forms over 10 or 12 inches in the winter, just forget about the lilies. Don't try to winter tropicals. It is cheaper to let them die and buy new ones.

This little outline illustrates how to determine the proper depth to plant the various plants.

Bog Plants—

Cattail	Umbrella Plants
Arrowhead	Papyrus
Rush	Bulrush
Pickerel Plant	Forget-Me-Nots
Water Iris	Swamp Calla
Sweet Flags	Primrose Willow

Water, 3 to 6 inches deep—

Cattail	Thalia
Rush	Primrose Creeper
Pickerel Plant	Floating Heart
Iris	Poppy
Sweet Flags	Snowflake
Swamp Calla	

Can be planted in same box with Lilies—

Oxygenating Plants	Floating Heart
Poppy	Primrose Creeper
Snowflake	

Floating Plants—

Hyacinths	Fern
Lettuce	

ARTISTIC Tub Garden

ANY sunny spot is satisfactory for the Tub Garden. A common wash tub may be used for the pool. Sink the tub in the ground and place rocks or flat stones around the edge to give a natural appearance. Fill with water and plant. You are now ready for a summer of real pleasure in your garden.

Collection No. 2

- 1 Water Lily. Any color you select; white, pink or orange.
- 6 Plants to plant in tub.
- 4 Plants for border.

All for **\$1.75** Prepaid

Fill-Your-Tub Collection No. 3

- 8 Plants, including Water Poppy, Water Hyacinth, Umbrella Palm, 3 plants for the border, and 2 oxygenating plants.

All for **\$1.00** Prepaid

Twelve Showy Plants for a Small Pool

This arrangement is suitable for any style pool, and makes a beautiful appearance. All the tall growing Water Plants should be planted in large pots and built up with bricks to within 1 inch of the surface.

Two beautiful choice Water Lilies, assorted Water Plants and plants for the border complete the picture.

Collection No. 4

- 2 Water Lilies—Marliac Rosea and Gladstone.
- 10 Beautiful Aquatic Plants for your pool.

\$2.25 Prepaid

Collection No. 5

- 1 Water Lily. Your choice, white, pink or yellow.
- 5 Plants. Assorted oxygenating, floating and shallow water.

\$1.00 Prepaid

Hardy Water Lilies

YOU will particularly enjoy these varieties. The Lilies listed below have been selected because they combine the qualities of prolific bloomers and sturdy growth as well as lovely flowers. The flowers include all the colors: rich reds, beautiful whites, shell pinks to deep rose, yellow and orange. Some of them have blooms eight inches across. All of them are hardy and adapted to planting and growing conditions in your garden pool. Their only requirements are sunlight, water and rich soil.

RED VARIETIES

CONQUEROR. You'll like this variety. The flowers just seem to live up to the name. Large buds come forth, bursting into immense red flowers. \$2.00 each.

GLORIOSA. One of those Lilies with an abundance of "IT." It has no equal for blooming. No pool is complete without this beautiful red Lily. \$2.00 each.

ATTRACTION. This bright red Lily is an attraction in itself. Large blooms frequently 8 inches across make everyone want to have this variety in his pool. A real aristocrat of the aquatic family. \$2.50 each.

JAMES BRYDEN. Always a favorite. Bright rosy red flowers. Cup-shaped and massive in appearance. \$1.75 each.

ESCARBOUCLE. The prettiest red of them all. It is a Lily we can recommend. A free grower. An early bloomer, exceptionally hardy. \$2.50 each.

CARMINE LAYDEKER. A small growing carmine-rose Lily, which makes it ideal for small pools. You cannot go wrong in ordering this variety. \$1.25 each.

JAMES HUDSON. Enormous flowers of rich, rosy crimson. Flowers are tulip shaped with pointed petals. \$5.00 each.

Solfatare—a new variety with sunset shades

Eugenia De Land

ORANGE VARIETIES

AURORA. Do not hesitate to choose the Aurora if you are seeking a hardy, free blooming Lily of sunset shades for your pool. On the first day the flowers are a soft rosy apricot, deepening by the third day to nearly a red. Many days after your plant is established you will see blooms of three distinct colors. Quite an attraction. Suitable for small pools or tub garden. \$1.00 each.

COMANCHE. This is our choice of a sunset color Lily for a large pool. It has all one could ask of a Lily. It begins to bloom very early in the spring and we have seen it in bloom until ice forms in the ponds in winter. The color is a rich apricot, then changing to a deep bronze. \$1.50 each.

SOLFATARE. A new French variety. Its soft peach color changing to salmon makes a combination of colors that one admires. Try it. We are sure you will enjoy it. \$1.25 each.

CHRYSANTHA. An excellent new free blooming variety. Color undergoes a change on successive days, opening a creamy yellow and darkening until it is deep orange-vermilion. \$1.25 each.

INDIANA. It opens a creamy yellow and shades through orange, bronze and fire-red. Suitable for small pools. \$1.25 each.

SIOUX. Large flowers of rich, brassy yellow, shaded red. \$1.50 each.

PAUL HARIOT. A favorite variety that is one of our best sellers. Always a feature attraction. \$1.25 each.

Mr. J. W. Adams, Philadelphia, Pa., writes:
"My order came this morning as a surprise, since I was not expecting it until next week.

"Due to the fine packing, the specimens arrived as fresh and unbroken as though they had just been removed from the pools. The entire job was nicely finished, even to the generous sample of fish food enclosed."

Hardy Water Lilies

PINK VARIETIES

MARLIAC ROSE. This pink Lily still stands out as a worth-while variety for any pool. Excellent as a cut flower variety, its waxy blossoms last several days when picked. \$1.25 each.

MARY. Dainty little Mary, admired by all. Try this young lady if you want an inexpensive Lily for a small pool. 95c each.

PINK OPAL. We have always enjoyed its deep pink cup-shaped flowers. Everyone recognizes its value and it is one of our best sellers. A fragrant variety for the small or large pool. \$1.00 each.

ROSE AREY. Another painted petal variety. The flowers are a deep pink, deliciously fragrant. It is very hardy and grows freely. \$1.50 each.

AMABILES. A new variety that is a beauty. So different in form and bloom that we recommend it as something really worth while. It's in a class by itself. In color it is a bright silver-pink and its blooms easily average 7 inches in diameter. \$3.00 each.

NEPTUNE. The feature of this rare variety is the color of its blooms—imagine a deep pink flushed with smoky red at the base, then becoming lighter until the tips of the petals are almost white. Visitors to our gardens have wondered at the large amount of blooms coming from the plants. Try it for something that is different. \$2.50 each.

ESMERALDA. Another French variety of recent introduction. Different—in having its flowers variegated pink and white in a striking manner. \$1.50 each.

VENUSTA. A beautiful begonia-rose color sending its blooms above the water. \$1.00 each.

Marliac Rosea—a beautiful deep pink variety

Gonnere—large double white flowers

EUGENIA DE LAND. Quite different from other Lilies in that its blooms are pointed like the Cactus Dahlia. Deep pink at base of petals, light pink at tips. A vigorous grower and bloomer. \$1.25 each.

EVANGELINE. A beautiful pink Lily. The flowers are extra large. This is a vigorous and free growing variety. \$1.00 each.

HELEN FOWLER. A pink variety of the Odorata type. Very fragrant flowers. \$1.00 each.

TUBEROSA ROSEA (Rose Magnolia). Pink variety, a very large grower and not suited for pool use. Excellent for naturalizing in large lakes. 75c each.

W. B. SHAW. Flowers very large, of rose-pink color and very fragrant. \$1.00 each.

WHITE VARIETIES

GLADSTONE. One of the best of the White Lilies. Large white flowers with broad waxy petals. A strong grower and a free bloomer. It is excellent as a cut flower and very popular with beginners as it is grown so easily. \$1.25 each.

GONNERE. The greatest and finest of White Lilies. Each blossom is a perfect globe. This variety is double clear to the center. Snowy whiteness of color. In our opinion it is one of the most attractive Lilies in our gardens. \$2.00 each.

MARLIAC ALBIDA. A most desirable white variety, free bloomer. Try it. We are certain it will please you. \$1.00 each.

WHITE LAYDEKER. A very pretty Lily of dwarf habit. Creamy white blossoms with bright yellow centers, having a strong tea fragrance. \$1.25 each.

HERMINE. A new variety admired by all who see it. The pointed petals give it a distinctive appearance from other white varieties. Snow-white flowers. \$1.50 each.

YELLOW VARIETIES

CHROMATELLA. A variety that far outsells any other Lily. It is one of the best of the yellow varieties. Leaves beautifully marked in deep green and brown. Bloom a rich yellow in color. \$1.00 each.

SUNRISE. The biggest and best of them all. Looks like huge yellow suns floating among leaves that are beautifully marked with brown spots. The flowers are graceful in form, of glorious canary color. A lily that should be in every water garden. \$2.00 each.

YELLOW PIGMY. A tiny little Lily that is ideal for tub culture, or very small pool. Flowers are only 1 to 2 inches across. Of a rich golden yellow. 65c each.

ODORATA SULPHUREA. A fragrant yellow Lily. \$1.00 each.

The Sacred Lotus

THERE is something fascinating about a Lotus. Symbolic of purity under temptation stands the Lotus, so the followers of Buddha have said.

In the Lotus we see beauty of form and harmony of color, great concave, shield-like leaves often 2 feet in diameter, large buds borne on long stems 4 to 8 feet tall, enormous flowers with delightful fragrance.

CHINESE RED LOTUS. The King of the Lotus—full double flowers of bright rosy carmine carried well above the foliage. A most gorgeous variety. It grows well under almost all conditions. \$2.50.

JAPANESE LOTUS (*Album grandiflorum*). Pure white flowers, extra large foliage. Each, \$1.50.

SHIROMAN. A double flowering white variety. Each, \$2.50.

AMERICAN LOTUS (*Luteum*). Native to some of the States in the South and West. Flowers, rich yellow, large grower, requires considerable room in a pool. Each, \$1.50.

EGYPTIAN LOTUS (*Speciosum*). The Sacred Lotus of the Nile. Rosy pink blooms. Shy bloomer in a small pool. \$1.50.

MIXED LOTUS. Good varieties, our choice. Each, \$1.25.

LOTUS COLLECTION No. 6

An outstanding attraction in the water garden. The huge leaves and flowers add a touch of the Orient.

Tropical Lilies

Immense Blooms Gorgeous Colors

SOONER or later you will include Tropical Water Lilies in your collection. No pool is complete without at least one. They bring to the pool something you can't have in the hardy Lilies. Long erect stems bear their large flowers above the water level. Some varieties bloom at night. The size of the bloom depends upon the amount of soil and leaf spread available for each plant. Give them a chance and they will repay you.

Mrs. Woodrow Wilson—blue Tropical Lily

Day Blooming Tropical Water Lilies

AUGUST KOCH. This Lily is free flowering and of extremely easy cultivation. Its flowers are 7 to 8 inches across, very fragrant. The sepals are purplish lilac and the petals pale wisteria-violet. \$2.00.

BLUE BEAUTY. Deep blue. Free and continuous flowering. Leaves and buds spotted purple. \$2.00.

DAUBEN. It produces small, light blue flowers in great profusion. Fine for tub or aquarium. 95c.

MRS. C. W. WARD. A most charming variety with petals of rich rose-pink. Flowers are borne well out of the water. \$2.00.

MR. GEO. H. PRING. A new and novel type that produces numbers of large, fragrant white flowers with pointed petals. Petals broader at the base and more pointed at the tip. \$1.50.

MRS. WOODROW WILSON. This variety has lavender-blue flowers of large size. It is an extremely satisfactory day blooming variety. \$1.75.

GENERAL PERSHING. Clear, distinct pink. The flowers are of great substance, delightfully fragrant. Opens early in the morning. \$2.50.

PANAMA PACIFIC. It is an everblooming viviparous, strong growing and free flowering. The predominant color is reddish purple and the stamens are yellow. A most excellent variety. \$2.00.

MRS. ED WHITAKER. One of the largest flowered varieties of the show type Lilies. Fragrant sky-blue blossoms open quite flat. Three to four open flowers at one time. An excellent plant for any pool. \$2.00.

Night Blooming Tropical Water Lilies

Frank Trelease

Why not plan to have a Lily in your pool that everyone can enjoy. When Dad comes home in the evening, he is surely entitled to enjoy the blooms in the water garden. This type of Lily opens towards evening and remains open until ten the next morning.

BISSET. A night bloomer of unusually free-blooming habit. The flowers are of a beautiful rose-pink color. The petals are broad and slightly concave, giving the bloom a cup-shaped form. \$1.20 each.

FRANK TRELEASE. Flowers a brilliant crimson. Most popular because of its rich color. \$1.50 each.

JUNO. Large, snow-white flowers, with a center of pure yellow stamens and produced freely. \$1.50 each.

OMARANA. A pleasing pink Lily. A vigorous grower and one of the freest flowering. \$1.00 each.

RUBRA ROSEA. One of the best. Brilliant rosy carmine flowers are held well above the glossy foliage. \$1.25 each.

H. C. HAARSTICK. A new night bloomer. The flowers are brilliant red in color. A wonderful variety. \$2.00 each.

Tropical Lilies should be planted only after weather is warm and settled.

Mrs. Gerald Boerner, Austin, Texas, writes:

"You are right in saying fish are enthusiastic over this fish food. My pet Comets simply stand on their tails at the top of the water and blow bubbles at me—they are so eager for their feedings.

"I enclose a snap of our pool which was finished and planted in May."

Lily Pool of Mr. and Mrs. Gerald Boerner, Austin, Texas.
7 feet in diameter; 24 inches deep—Rose Arey Lilies.

Enjoy Natural Beauty

WITH THESE WATER PLANTS

Umbrella Palm

There are wonderful possibilities with Water Plants to give your pool a unique and tropical appearance. Try a collection of Taro, Umbrella Palm, Papyrus and Primrose Willow, grouped together in a corner of the pool or in the center, or a collection of Primrose Willow, Parrot Feather and Forget-Me-Nots in a shallow corner of the pool.

For a natural pool use plenty of Japanese Iris planted right at the edge or in one to three inches of water. Our sturdy, healthy plants reach you ready to grow. If you have ever planted aquatics before you know the value of starting with good plants.

HERE are grouped those plants which grow in the water. They are varied and interesting, and give the much desired natural effect to the pool. They are easily grown. Most of them do best in shallow water and so the pots, boxes, or tubs should be raised to within two to eight inches of the surface.

Marsh Marigold

Flowering Rush

Varieties marked with a (*) are particularly adapted to a depth of 6 to 12 inches.

Varieties marked with a (†) are suitable to plant at about 2 to 6 inches.

Varieties marked with a (‡) are plants that like wet feet but with crowns and stems preferring the air and sunlight.

Varieties marked with a (§) are the beautiful Tropical Plants.

FLOWERING RUSH—A hardy plant with peculiar three sided leaves. Pink flowers are borne on round stems. 25c each. (Illustration at left).

§†‡**UMBRELLA PALM**—We have an excellent strain of this popular plant; produces large fan-like leaves. 25c each.

†**VARIEGATED SWEET FLAG**—One of the best of the shallow water plants; saber-like leaves, broadly striped green and ivory. 25c each.

‡**MARSH MARIGOLD**—An attractive native plant for shady places. Blooms in the early spring with yellow flowers like those of the buttercup. 20c each.

†***PRIMROSE CREEPER**—A rapid growing, partially submerged aquatic with yellow flowers. 2 for 25c.

‡**PRIMROSE WILLOW**—Erect plants 2 to 3 feet high, with attractive narrow foliage and bright yellow blossoms. Very desirable at the edge of pools or in a tub garden. 25c each.

(Continued on Pages 12 and 13)

Interesting Plants that Be

Pickerel Plant

- †**PICKEREL PLANT** — Beautiful blue flowers. Total growth about 2 ft. 25c each. (Illustrated above.)
- §†**THALIA**—A handsome canna-like aquatic standing 3 to 6 ft. high. 50c each; 3 for \$1.00.
- §†**PAPYRUS or EGYPTIAN PAPER PLANT**—A very beautiful water plant with plummy heads of foliage. 25c each.
- ‡**CARDINAL LOBELIA**—Another beautiful native plant. Spikes of rich, cardinal-red flowers. 20c each.
- ‡**HARDY CALLA** (*Calla palustris*)—Similar to a Calla Lily, but of much smaller size. 20c each.

†**IRIS**—(Yellow Flag or Blue Versicolor). Very attractive and hardy. 25c each.

JAPANESE IRIS—This beautiful Iris thrives in wet soil around the pool or planted in a box in the pool to a depth of one to four inches. Large clumps. 25c each.

§†**PURPLE WATER HYACINTH**—A creeping plant, with handsome blooms. 50c each; 3 for \$1.00.

†**ARROWHEAD, GIANT**—Beautifully shaped leaves, white flowers. 20c each.

§†**BUTTERFLY LILY**—A tall canna-like plant with large leaves. White or yellow flowers. 35c each; 3 for \$1.

§†**WATER POPPY**—Leaves float upon the water. Flowers are large and yellow. Should be in every pool. 15c; 4 for 50c.

§**WATER HYACINTH**—A beautiful floating plant. Spikes of orchid-lavender flowers are produced freely if the roots are allowed to anchor in soil. 2 for 25c; 6 for 50c.

†**CATTAIL**—Swamp plant. Hardy. 2 for 25c.

†**GRACEFUL CATTAIL**—A tall variety with slender cattails. These plants furnish a very fine background in massed plantings. 2 for 25c.

***FLOATING HEART**—Small leaves resembling Water Lilies; brilliant yellow flowers. 2 for 25c.

‡**FORGET-ME-NOT**—The well known spring and summer flowering plant. 25c each.

§**DWARF UMBRELLA**—A dwarf form of this popular plant, excellent for small pools or tub gardens. 20c each.

§**WATER FERN**—An aquatic fern producing small ferns on upper side of the leaves. 15c each.

Water

ANOTHER WONDERFUL VALUE

SPECIAL CENTERPIECE COLLECTION No. 6A

Illustrates our 6-A Special Centerpiece Collection and includes Umbrella Palm, Papyrus (tall plant), Taro, Primrose Willow (in bloom), Water Poppy, Creeping Water Hyacinth (in bloom on water).

ONE OF OUR FINEST VALUES

This group should be planted in a box or large tub, submerged about three inches below water level. The Taros and Paper Plants should be planted in the center and the other plants grouped around it.

- 2 Egyptian Paper Plants
- 2 Water Taro
- 2 Umbrella Plants
- 1 Primrose Willow
- 2 Water Poppies
- 1 Creeping Hyacinth

All Plants priced 25c each are sold 3 for 50c

Beautiful Your Water Garden

IMPERIAL TARO—Illustrated on this page. This plant should be in every water garden. Very attractive. The leaves are blotched a dark brown and violet-black. You will enjoy having this plant. 50c each.

§JAPANESE TARO—

(*Colocasia multiflora*)—Rich green leaves on dark purple stems. 35c each.

(*Colocasia Indica*)—Similar to above except it is entirely green. 25c each.

§WATER LETTUCE—A pretty floating plant with green fluted leaves and long wavy roots. 2 for 25c.

***WATER SNOWFLAKE** — Similar in growth to a lily. Shipped as a detached leaf which soon forms new plants. Each new leaf is soon filled with dainty little white flowers. Quite novel. 20c each.

FLOATING PLANTS—Azolla, Duckweed and Salvinia. These three floating plants are at home in every pool. Small dainty plants, which float on top of the water. Large portion, assorted. 50c.

HARDY BAMBOO—A very tall growing variety for background use. Adds a tropical atmosphere to your water garden. Green variety. 20c.

‡VARIEGATED BAMBOO—A green and white variety that is very beautiful. Grows about 3 feet high. 50c each.

§STRAILING ARROWHEAD — (*Nephtytis liberica*). A new plant having been introduced in the past few years. Can be grown as a vine or in an upright position. Does well either as a bog plant or in water. 25c each.

‡DWARF ACORUS—A miniature form of the trailing arrowhead, growing about six inches high, excellent for planting between rocks where it is damp or wet. 20c each.

§CALLA LILY—Tropical in appearance and bears snow white flowers. 25c each.

§YELLOW CALLA LILY—Its flowers are as large as the above variety but a golden yellow color. Beautiful foliage. Dark green leaves with spots of creamy white. 50c each.

‡‡PARROT FEATHER—Extremely valuable for trailing over a fountain. 15c a bunch.

Goldfish

THE IDEAL POOL FISH

NO POOL—even if it is a miniature one—is complete without a few ornamental fishes. Fish in the pool will take care of themselves, only an occasional feeding of Dried Shrimp and Jo Jo Fish Food is needed.

The illustrations show several different types. The illustrations are not exaggerated as is the case in many catalogs. You will be pleased with our selections.

Goldfish may be wintered outside in your pool, provided you have some soil and plants in it, and the depth is at least 18 inches. If you drain your pool, a tub or tank in the basement will answer.

SHIPPING INSTRUCTIONS

Goldfish are shipped by express. Customer to pay the charges. On small orders include 50c for shipping can, same is then your property. On large orders we loan you the can, same to be returned at once by express prepaid. The express company makes a flat charge of 20c for returning empty cans.

THE BIG ONES

GIANT GOLDFISH—10 to 12 inches—\$3.00 per pair, \$15.00 per dozen; 8 to 10 inches—\$2.00 per pair; \$10.00 per dozen.

GIANT COMETS—The fish with that long wavy tail, 12 inches. \$4.00 per pair.

LARGE ORIOLES—An orange and black color. 4 to 6 inches. \$1.00 per pair.

GIANT PEARLS—6 to 8 inches—\$2.00 per pair; 10 to 12 inches—\$6.00 per pair.

GIANT SHUBUNKINS—The large size of the Calico Fish. 7 to 9 inches. \$3.00 per pair.

POOL GOLDFISH

A selected group of goldfish suitable for all pools. An assortment of colors, gold, gold and white, pearl, gold and black. Assorted 2 to 4 inches—\$1.00 per dozen; 25 for \$2.00. 4 to 5 inches—\$1.50 per dozen; 25 for \$3.00. 5 to 6 inches—\$3.00 per dozen. 6 to 7 inches—\$5.00 per dozen.

COMET TAILS

A variety with unusually long tails. 6 to 7 inches—\$1.50 per pair; \$7.50 per dozen. 7 to 8 inches—\$2.00 per pair. 8 to 9 inches—\$3.00 per pair.

FANTAILS

These are the best known of the fancy goldfish. 3 to 4 inches—75c per pair; 4 to 5 inches—\$2.00 per pair; 5 to 6 inches—\$3.00 per pair.

GIANT FANTAILS—\$3.00 to 10.00 each.

TELESCOPES

An odd fish with large protruding eyes. These fish are highly prized. Red and velvety black. Small sizes—50c each; medium—75c each; large—\$1.00 each. It is very difficult to classify these fish accord-

ing to inches. They are priced more according to quality.

CALICO

The wonder fish, marvelously colored, brilliantly mottled, blue, red, gold, brown, white, yellow and black. A thoroughly hardy fish. No two fish are colored alike. 2 to 3 inches—\$1.50 per doz. 4 to 5 inches—\$1.00 per pair; \$5.00 per doz. 5 to 6 inches—\$2.00 per pair; \$10.00 per doz.

GOLDFISH FOR THE SMALL POOL

Collection No. 25

A complete collection of small size fish, ranging from 2 to 4 inches, 25 fish. 15 Pool Fish, 6 Calico Fish, 2 Telescopes and 2 Fantails, including shipping can, \$3.00.

GOLDFISH FOR THE MEDIUM POOL

Collection No. 26

A combination of all sizes of goldfish. 20 selected goldfish, 2 to 4 inches; 10 selected goldfish, 4 to 5 inches; 10 Calico fish, 2 to 4 inches; 10 assorted Comets, Fantails and Telescopes. **Fifty fish**, including shipping can, \$5.00.

GOLDFISH FOR THE LARGE POOL

Collection No. 27

A collection of beautiful goldfish of medium and large sizes—50 Pool Fish, 2 to 4 inches; 10 Pool Fish, 4 to 5 inches; 3 Giant Goldfish or 6 young Giants; 25 assorted sizes Shubunkins, from small to extra large size, 12 assorted Telescopes and Fantails. 100 fish, \$15.00.

On this collection we loan you large shipping can, same can be returned at once, express prepaid.

Quality Fish Foods

WHEN DO WE EAT? Even the little fish fairly climb out of their pool in their enthusiasm over Jo Jo Fish Foods. They seem to know it's the proper fish diet. You can give fish all the Jo Jo Fish Food they want because it is appetizing and healthful.

JO JO NATURAL FISH FOOD

The finest quality for goldfish in aquariums; contains all the necessary ingredients. We make it and use it here at the hatchery. It is easy to use. Price, 15c per can, postpaid.

JO JO TROPICAL FISH FOOD

A wonderful food. A perfect balanced food for daily feeding of all kinds of tropical fish. Contains all the ingredients that promote the growth and health of fish. 15c per can, postpaid.

JO JO SHRIMP FISH FOOD

For fancy goldfish and tropicals. Finely ground and packed in sift top cans. Shrimp Food contains necessary vitamins to keep fish in a healthy condition. Per can, 15c, postpaid.

FISH TONIC

An excellent tonic for Tropical and Goldfish—in preventing fungus or itch, ridding aquarium of Hydra. 4-oz. pkg., 15c; 1 lb., 50c, postpaid.

JO JO TURTLE FOOD

Contains all ingredients found necessary for these little pets. Also, a fine food for Newts and Salamanders. Turtles should also be fed a little raw beef occasionally. Price, 15c per can, postpaid.

And you can be on the safe side by always ordering Jo Jo Fish Foods because you are sure of a fine quality food that your fish will relish. The inferior brands of so-called "cheap" fish foods often prove very costly because the fish refuse to eat it.

FUNGUS REMEDY

A remedy for ichthyophthirius, fungus and other external ailments of gold and tropical fish. Per bottle, 25c, postpaid. Large size, 50c, postpaid.

JO JO AQUARIUM GRAVEL

Especially prepared to give the proper bed for aquarium plants. 15c per 32-oz. box; 25c per 5-lb. bag; 10-lb. bag, suitable for ten to twelve gallon aquarium, 40c; 25-lb. bag for large aquarium, 60c. Not postpaid.

JO JO OUTDOOR FISH FOOD

Goldfish in outdoor pools do not receive a sufficient amount of natural food and must be fed a prepared fish food. The use of Jo Jo Outdoor Fish Food will help bring out brighter coloration in your fish. It is pleasant to the fishes' taste as is evidenced by the eagerness with which they look forward to their daily feeding.

Big 10-oz. package, 35c postpaid

The Aquarium

No. 01 CHROMOLOID FINISH AQUARIUM—

Here is a low price aquarium that is hard to beat, 2 gallon capacity, size 14 inches long, 6 inches wide, 7 inches high. \$2.00, prepaid.

Aquarium Illuminator

WRITE FOR PRICES ON TROPICAL FISH

Aquarium Necessities

A FEW HINTS ON CARE OF THE AQUARIUM

FEEDING—It is much better and far less harmful to feed fish too little than to overfeed.

WATER—Do not change water unless absolutely necessary, as long as it stays clear it is in good condition. When you do change, however, first have new water prepared a day ahead. Never forget to have the temperature of the water, old and new, the same.

SICKNESS—Fish, of course, are just as likely to get sick as any other living being. Remove a sick fish immediately from the aquarium, place it first in a solution of salt water (about 1 tablespoonful of sea salt in 1 gallon of water) and after 15 to 30 minutes in vessel of fresh water.

ITCH—is best cured by increasing temperature to about 85 degrees and adding 3 to 5 drops of Itch Remedy to a gallon of water. These few suggestions are made with the knowledge that there are plenty of exceptions to all rules.

AERATOR

The old theory of aeration being harmful is now dislodged. Aeration we now know to be beneficial. It makes up for deficiencies normally found in what was formerly known as a perfectly balanced aquarium. This Junior Aerator is fully automatic. Will operate on 110-120 volts. Costs about 1/25 of a cent per hour. Full directions sent with each aerator. Only \$1.65, postpaid.

HEATING EQUIPMENT

For the healthy and comfortable maintenance of Tropical Fish a sufficient and uniform temperature is essential. This can be secured in a safe and economical way in spite of fluctuations of temperature that the ordinary home is subjected to, by the use of our Aquarium Heaters and Thermostats.

LOVELAND AQUARIUM THERMOSTAT—These thermostats are the simplest and best obtainable for the price. \$1.50 each, postpaid.

NEW AUTOMATIC WONDER HEATER—Waterproof, adjustable.

Consists of 1 Waterproof Heating Unit. Cannot get wet inside even if submerged.

New Automatic Wonder Heater

Accurate thermostat. Easily adjusted by the novice. Results in dependable constant temperature. Built-in thermometer—40-watt size for 2- to 10-gal. aquarium, 75-watt for 10- to 25-gal. aquarium. \$2.50 each, postpaid.

JUNIOR AUTOMATIC WONDER HEATER

—Consists of a chrome finish Heating Unit. Accurate thermostat. Easily adjusted. 25-watt size for 5-gal.; 40-watt for 10-gal. aquarium. \$1.50 each, postpaid.

LITE O HEATERS—A new style heater for small aquarium. Warms and illuminates the aquarium. Complete with 2 globes. 85c postpaid. Extra globes 15c each.

LOVELAND AQUARIUM HEATERS—

Heavy metal tube heaters, chrome

finish. A thoroughly tested aquarium heater. 25, 40 and 75 watts. Specify wattage when ordering. \$1.25 each, postpaid.

JUNIOR AQUARIUM HEATER—Thin metal tube, chrome finish. A reliable little heater. 25 and 40 watts. 75c postpaid.

AQUARIUM TESTING KIT—A complete outfit for testing the acidity or alkalinity of water. Complete testing kit, \$1.50, postpaid.

PLANT POTS—Very handy in arranging plants in an aquarium, made of clay, very pretty. 20c each, postpaid.

CORAL—Beautiful pieces from the South Seas. Medium sizes, 25c each. 5 different specimens for only \$1.25, postpaid.

HI-BALLS—Medicated balls, neutralize acids and impurities. Every aquarium of fishes should have one or more in it. 10c; 3 for 25c.

ACID BALLS—Prepared to maintain a slight acid condition, especially useful in breeding egg-laying tropical fish. 10c; 3 for 25c.

BOOKS

These books are interesting, instructive and helpful in maintaining a balanced aquarium.

A PRACTICAL COMPLETE BOOK ON THE BEGINNER'S PROBLEMS—Fifty illustrations of tropical fish, plants, and scavengers. Most fish illustrations show both male and female in actual sizes. Practical illustrated articles on balanced aquarium, health, food, enemies, disease and helpful hints. 35c, postpaid.

POPULAR TROPICAL FISH BOOK—A complete illustrated book on the popular varieties of Tropical Fish. 25c.

1001 QUESTIONS ANSWERED ABOUT YOUR AQUARIUM—Provides all fish-lovers with a comprehensive and authoritative reference book. Illustrated, \$3.00.

A B C OF TROPICAL FISH—By Irma de Nazaris—Answers all questions on the proper care and management of the aquarium. A really good book and should be purchased by everyone interested in Tropical Fish. 25c each, postpaid.

Thermostat

WRITE FOR PRICES ON TROPICAL FISH

Aquarium Plants

Plants are the most important part of the Aquarium equipment. They keep the water constantly in good condition, because they release oxygen and on the other hand take up the carbon dioxide given off by the fish. Plants also serve as a natural refuge from too much sunlight. They are the first essential of an attractive and well balanced aquarium for their utility as well as their decorative value. It is because of the plants that you do not have to change the water in an aquarium.

All plants that come with roots such as *Sagittaria*, *Vallisneria*, *Spatterdock*, *Cryptocoryne*, should be planted in clean gravel. In that way they will grow and propagate. *Anacharis*, *Cabomba*, *Ludwigia*, and other bunched plants can be anchored gently in the sand, or for use in small goldfish globes they can be placed as received.

All of our plants are nursery grown or aquarium acclimated before shipping which means superior plants from a standpoint of quality and beauty.

Anacharis (Giant). Large bunches — Old standby. Useful for tropical or goldfish. 15c a bunch; two for 25c.

Cabomba—Fanlike leaves, green stems, excellent for goldfish. 15c a bunch; two for 25c.

Ludwigia—Leaves green above and scarlet beneath. 15c a bunch.

VALLISNERIA

LUDWIGIA

HAIR GRASS

MYRIOPHYLLUM

CABOMBA

ANACHARIS

SAGITTARIA

UMBRELLA PALM

SOUTHERN SPATTERDOCK

Green Myriophyllum—Very useful in spawning goldfish—decorative. 15c a bunch; two for 25c.

Spatterdock (Carolinensis). Beautiful fan-shaped leaves. 15c a bunch; two for 25c.

Vallisneria—Real Italian Vallisneria, greenhouse grown. 3 for 10c; 35c per dozen.

Sagittaria sinensis—Good green color. Greenhouse grown. 10c each; 4 for 25c.

Sagittaria subulata—Good green color, small variety. 10c each; 4 for 25c.

Hair Grass—Will grow floating or planted in the sand. Per portion 15c.

NEW AND ORNAMENTAL VARIETIES

Needle Leaf Ludwigia—An exceptionally good variety and very beautiful. 15c a bunch; 2 for 25c.

Bacopa—A novelty plant. 15c a bunch.

Red Myriophyllum—Beautiful new plant that is of a gorgeous red color. 15c a bunch.

Rubra Vallisneria—Wide leaf and best for use in spawning *Scalaes*. 15c a plant.

Variegated Vallisneria—Markings are novel. 10c a plant; 6 for 50c.

Cryptocoryne Willisi—Long pointed leaves. 35c each.

A LARGE COLLECTION OF ASSORTED AQUARIUM PLANTS

\$4.00, postpaid

Collection No. P-8

A collection of one each of all plants listed on pages 20 and 21 priced below 25c.

\$2.00, postpaid

SARRACENIA for Terrarium Use

4 varieties of these interesting insect eating plants including the Venus Fly Trap.

75c, postpaid

Scavengers

Be sure to have some scavengers in your aquarium. Scavengers consume the excrements of the fish, in fact any and all refuse which they find in the aquarium, and thus keep the water clean and in excellent condition. Scavengers placed by themselves in an aquarium are very interesting to watch. The Japanese Snails bring forth their young alive. The Water Newts and Turtles, while not useful as Scavengers, are very entertaining.

JAPANESE SNAILS—These are the largest of the Aquarium Snails and are very hardy. Two for 25c; \$1.00 per dozen.

BLACK RAMSHORN SNAILS—These are very active algae eaters. Six for 25c.

RED RAMSHORN SNAILS—Similar to the above except body and shell are coral-red. Two for 25c.

AUSTRALIAN RED SNAILS—Two for 25c.

TADPOLES—Two for 25c; 50c per dozen.

FRESH WATER CLAMS—Two for 25c; \$1.00 per dozen.

WEATHER FISH—50c each.

BABY GREEN TURTLES—2 for 35c.

AMERICAN SALAMANDERS (Water Newts)—Two for 25c.

JAPANESE SALAMANDERS—Attractive, jet black with a red belly. 25c each.

BABY ALLIGATORS—A very interesting pet. \$1.50 each.

INSTRUCTIONS

Weather Fish and Tadpoles must be sent by Express in water. These two items can be shipped with Goldfish or Tropical Fish. Send 50c extra for shipping can if ordering these items separate. All items listed above, except Weather Fish and Tadpoles, the **PRICES QUOTED ARE POSTPAID.**

How to Reach Loveland Goldfish Farm

Our Gardens are approximately 20 miles from the heart of Cincinnati's business district and quickly reached by following directions given in the accompanying chart.

From Dayton, use State Route No. 48 to Mason, Ohio, then right to U. S. Highway No. 22.

From Columbus, use State Route No. 3.

Note: Our post office address, only, is Loveland. Do not drive to Loveland in order to reach our Gardens which are located several miles from Loveland.

Have You Overlooked Anything in Ordering?

WATER LILIES. That extra box you have—how about a new Lily for it? That Lily you have tired of—why not replace it with a new variety? Don't forget Dad, he likes to enjoy the Water Garden and include a Night Blooming Lily for his benefit. For the new Water Garden, look over our wonderful collections.

LOTUS. Have you made room somewhere in your pool for one of these stately and beautiful plants? See Page 6.

GOLDFISH. You need a number of **Water Hyacinths** for the fish to spawn on. Hyacinths listed on Page 12 and **dipnet** to catch the fish when you drain your pool (see Page 10), and **Fish Food**—your fish deserve the best—and the best is a box of our **Outdoor Fish Food**.

PLANT PLENTY OF PLANTS. Enjoy the beauty and pleasure your pool is capable of bringing to you. A corner of **Water Poppy**, another corner with the snowy white flowers of **Snowflake**—the **Creeping Hyacinth** as it creeps and blooms across your pool will add much beauty to your pool. A clump of **Japanese Iris**, alongside your pool, a patch of **Forget-me-nots** in that swampy place where nothing else will grow.

TALL PLANTS take away those straight lines of your pool. You can do it with our Collection No. 6A. The biggest value ever offered. Page 12.

BEFORE SPRING COMES. Enjoy your Indoor Garden.

AQUARIUMS. Plants for the Aquarium, Scavengers and Supplies are listed on Pages 18 to 22.

OTHER FLOWERING PLANTS

for Edging Pools and for Rockeries

HERE are grouped those plants for edging pools and for rockeries. We take pride in these generous offerings of perennial and rock garden plants. These plants are not light grade seedlings — nearly all plants are two years old—and with few exceptions are of blooming age.

EIGHT ROCK PLANTS—All popular varieties—Dianthus, Dwarf Phlox, and Veronicas, Violas, Heuchera, Achillea, Arabis, etc.

Collection C-1, 8 for \$1.00, Postpaid

"HEN AND CHICKENS" — Six assorted varieties. Each one different and labelled.

Collection C-2, \$1.00, Postpaid

ORNAMENTAL GRASS—To give a real tropical appearance to your water garden your first thought should be a collection of the beautiful hardy ornamental grasses.

3 ornamental grasses

Collection C-3, 50c, Postpaid

5 VERONICAS—For the rock garden—for continuous bloom from April until June.

Collection C-4, \$1.00

5 DWARF PHLOX—Those beautiful gems, admired by all when in bloom—for the rock garden or along the outside edge of the pool. One of each color—bright pink, lilac, blue, light pink, and rosy red.

Collection C-5, \$1.00

A FEW UNUSUAL PLANTS

CAMPANULA POSCHARSKYANA—The Serbian Bellflower. What a name and also what a plant. The hardiest and most vigorous of the dwarf Campanulas. Forms a beautiful 5 inch mat of blue bells. 25c each.

REGAL LILY — The well-known fragrant Regal Lily may now be enjoyed by all gardeners. Flowering sized bulb 15c each—\$1.25 per dozen.

NEW HYBRID PRIMULAS — An entirely new plant for bog planting. Very hardy—flowers in red. June flowering. Grows in damp marshy places and will tolerate some standing water. A very desirable plant. 25c each; 3 for 50c.

Oriental Poppies. We offer the three best varieties:

Mrs. Perry. Large pink flowers.

Joyce. Rose-pink.

Lulu A. Neely. Brick-red.

**25c each or one each of the above
3 for 50c**

DOUBLE PYRETHRUM — We have tried many of the double Painted Daisies and have selected a deep rose which we believe to be the best yet. You will like it. 25c each.

FIVE CHOICE DIANTHUS

For your rock garden, each different—including one plant of the new Pink Dianthus Arvernensis.

Collection C-6, \$1.00

TEN CHOICE SUCCULENTS

Use Succulent Plants in your garden.

They are a satisfactory type of material for rock garden, wall planting and will stand as much watering as Hardy Sedum.

Collection 10 Assorted, \$1.00
